

New Master's Programmes

starting in WS2021/22

The University of Vienna and the Faculty of Business, Economics and Statistics strive to provide students with high-quality education in relevant fields. Thus, the expiring Master's programme in Economics will be replaced by two newly designed Master's programmes, which offer either an applied approach in economics or a research-oriented focus in economics and finance. Both ensure an in-depth training to deepen and complement knowledge of future professionals and scientists. The new Master's programmes start in winter semester 2021/22, registration is now open.

Economics

Applied Economics

Degree: Master of Science (MSc)
Duration: 4 Semesters/120 ECTS
Entrance Exam: No
Study Language: English
[Curriculum](#)

The Master's programme Applied Economics offers in-depth and supplementary professional training for economists on the basis of Bachelor's programmes or extension curricula. Accordingly, the programme includes detailed training in the core subjects as well as broadening training in the application areas of economics in various fields of specialisation. The students are to be trained for a relevant professional activity as qualified economists in business and administration.

Research in Economics and Finance

Degree: Master of Science (MSc)
Duration: 4 Semesters/120 ECTS
Entrance Exam: Yes
Study Language: English
[Curriculum](#)

The aim of the first Research Master's programme at the University of Vienna is to deepen and complement scientific education in the fields of economics and finance. Accordingly, the programme comprises a thorough and in-depth education in their core subjects, as well as an introduction to ongoing research in the fields of economics and finance. The programme is designed to prepare students for doctoral studies and a subsequent professional career in academia or research institutions.
